

# Errata

Here are the errors in *Volume 2* that I'm aware of:

- p. 87: I erroneously state that the titles *Elysium* and *Electric* both consist of seven letters, which is obviously untrue for *Electric*. I thought I had mastered the skill of counting to ten before I started school, but apparently not.
- p. 93: A typo in which “soldier” is misspelled “solider”.

## Expanded Bibliography

Because of strict space limitations, I was unable to include as extensive a bibliography as I would have liked in either volume of my books. I therefore included there only ‘selected’ bibliographies. I’m taking advantage of this opportunity to present to interested readers this expanded bibliography, citing a number of additional sources that I couldn’t include in the print selected bibliographies. Please note that sources *already* included in the selected bibliographies are **not** repeated here. In some cases I was unable to track down a precise source, which prevents me from listing it here. But I’ll be pleased to receive any verifiable information anyone may wish to send me about unattributed sources so that I can update this bibliography accordingly.

## Volume 2 Index

This index is for *Pet Shop Boys: Song by Song Volume 2 (2005-2025)*. Please note that it is **not** a completely comprehensive index in that not every proper name mentioned in the book is listed but only those that, in the possibly flawed estimation of this writer, are most likely to be of greatest interest to most readers. For instance, I leave out the names of most studio musicians, though I do make a few exceptions. Also, people and things mentioned with tremendous frequency—such as ‘Pet Shop Boys,’ the names Neil Tennant and Chris Lowe, Parlophone Records, most cities and locales, and various recording studios—aren’t listed. The titles of Pet Shop Boys albums and songs are grouped together under the headers ‘Pet Shop Boys albums’ and ‘Pet Shop Boys songs.’ In titles, the articles *A*, *An*, and *The* are **not** ignored in alphabetization. Since the central illustrations section is unpaginated, items that appear there are listed as CS followed by a number. For example, ‘CS3’ means the third page of the central illustrations section. For PSB albums and songs discussed on more than one page or sequence of consecutive pages, the primary page numbers appear in **boldface**.
